PRODUCTS
KMG FRANCE

After forty years of experience in the Art publishing industry, we leverage all our expertise to guarantee high-quality products, small quantities, delivered promptly. We are here to assist you in bringing your projects to life and conveying your brand identity through a diverse range of products.

To ensure everyone has a place in society and can thrive regardless of their situation or disability, we are committed to various associative structures that support workers with disabilities through employment (ESAT).

We are proud to introduce them to the world of Art through the works we reproduce.

95% of our products are made in France and the European Union.

Discover the entire KMG France universe in our catalog.

All that's left is for you to send us your images, and we will bring your projects to life.

Scarf

Fine Fabric – Polyester and Cotton Blend,
Fine Ring-Spun Yarn

Fine ring-spun yarn is a type of yarn known for its softness and strength. It is produced through a spinning process in which the fibers are twisted together in a continuous ring, resulting in a smoother, finer, and more durable yarn compared to open-end spinning. Fabrics made from ring-spun yarn are generally more comfortable and of higher quality. They are commonly used in garments such as T-shirts and other items where a soft hand feel is desired, such as our scarves, for example
